

Caring for our most vulnerable citizens is as integral to the Canadian ideal as red is to our Maple Leaf. New Visions Toronto may not be as old as Canada, but our enthusiasm for dignity, choice and community inclusion is unquestionably Canadian.

For Canada's 150th celebrations we invite you closer, to help bring vibrancy, comfort, and better access, so people with complex disabilities can live meaningful lives. After 31 years, while our values and commitment are as unfalteringly strong as Canada's flag in the subzero wind - homes and furnishings are in need of repairs and a face-lift.

Our 2017 fundraising goal of \$150,000 is dedicated to rejuvenate homes which have seen wear and tear over 20-30 years: fixing floors damaged by necessary wheelchair use; reinforcing walls; painting homes inside and out; improving laundry facilities and updating kitchens, bathrooms, and the replacement of two vehicles

Collectively we at New Visions Toronto, our Board, staff, and families of the more than 50 people we support, will strive to ensure quality residential care for many years to come with your support.

Please join us and help celebrate Canada's 150th with us.
